

TC024 / Rank 30 - Warm Opening

TwoCard_Combined

- Start an interaction with a low-pressure line that conveys warmth and makes entry easy.
- > Recognition + small warm/context signal + clean purpose bridge - "Good to see you. Quick one - I wanted to ask about Friday." - "Thanks for making time. I know your day is packed, so I'll keep this
- "Good to see you. Quick one..."
- The move fails when the opening is too eager, too familiar, scripted or unrelated to context.
- > Warm first, then clear. The best warm opening makes the other person feel seen without making them wait for the point.
