

THE MOVE

Echo their key phrase + one small question + pause. -> Weirdly political - how so? -> Hidden rules layer - what do you mean by that? -> Not sustainable - what part feels unsustainable? -> A good kind of intense - what made it good? -> Dismiss...

START HERE

Repeat the key word or phrase, then ask one short question: "how?", "what part?", or "what do you mean by that?"

SAY THIS

Quick defaults	<i>"How so?"</i>
Warm and natural	<i>"That word sounds important. What made it feel that way?"</i>
Charismatic / social	<i>"Chaotic in a fun way or a why-am-I-here way?"</i>
Professional / workpl...	<i>"When you say 'risk', what risk specifically?"</i>
High-status / senior p...	<i>"When you say 'priority', what specifically should we optimise for?"</i>
Conflict / resistance	<i>"You said 'unfair'. What would have felt fair?"</i>

AVOID

- They are emotionally overwhelmed and need validation before any more questioning
- Their wording is private, embarrassing or vulnerable and echoing it could feel exposing
- You have already echoed several phrases in a row

REMEMBER

Echo the door, not every word.
