

TC064 / Top500 rank 64 / Check before interpreting

Core move

Before you say what someone meant, felt, wanted, implied, or intended, pause and check your read with them.

Formula

Tentative marker + specific interpretation + correction invitation.

Field phrase

I may be reading this wrong - is it [A], [B], or something else?

Calibration

Continue if they correct and elaborate. Stop if they feel analysed, cornered, or done.
