

DESC

Describe -> Express -> Specify -> Consequence / next step

D - Describe

Name observable behaviour.
No motive-reading. No labels.

E - Express

Name impact, concern or effect.
Own your reaction.

S - Specify

Ask for one concrete change.
Make it observable.

C - Consequence

Name your boundary or next step.
Never use it as punishment.

Core rule: the C-step is your boundary or next action, not their punishment.
