

TC080 / Top500 rank 80 / NURSE

Name emotion. Understand. Respect. Support. Explore.

Core move: when emotion appears, choose one NURSE response before advice, explanation or problem-solving.

N - Naming

It sounds like this has been frustrating.

U - Understanding

I can see why this would matter to you.

R - Respecting

You have clearly been trying to handle this carefully.

S - Supporting

I can help work through the next step.

E - Exploring

Tell me what part matters most right now.

Field rule: one accurate empathy statement is stronger than five generic ones.

Safety: use this for clarity, respect and dignity - not pressure, extraction or control.
