

TC085 Question-stacking restraint

One question at a time

Core move

Ask one real question at a time.

If you stacked, reset aloud and choose one anchor.

Formula

Stack -> Reset -> One anchor -> Wait -> Follow

Default: one question mark per turn.

Minimum viable phrase

I just asked too many things at once.

One question: what is the main part?

Calibration

If they answer only the last question, look defensive, or ask where to start, reduce demand.

Recovery

That came out like an interrogation.

I am going to slow down and listen.

Boundary

Use this for clarity and respect, not to extract, corner, sell, seduce, or override autonomy.
