

TC091 / Top500 rank 91

Forced-humour restraint

Care before clever.

- 1 Feel the joke impulse before it leaves your mouth.
- 2 Check: is it kind, timely, and wanted?
- 3 If not, choose acknowledgement, curiosity, apology, or quiet presence.
- 4 If it misses, repair impact without defending intent.

If the joke protects you more than it supports them, do not say it.
