

TC096 Capitalisation extension

Extend someone else's good news without taking it over.

Core formula

Good-news marker + specific value + extension prompt + autonomy release.

Minimum move

"That is worth enjoying. What was the best part?"

Calibration

Match their celebration size, then offer one step more room - not five.

Recovery

"No need to unpack it. I just wanted to register that it counts."

Field tip: make the good news easier to enjoy at the speaker's chosen size.
