

Impact Medium · Difficulty Easy-Medium · Misuse risk Medium

THE MOVE

State what you share -> Build the common ground -> Then diverge clearly

START HERE

Before presenting your counter-argument, name one specific thing you agree with in their position. Then state your difference.

SAY THIS

Shared Ground	<i>"We are both trying to solve the same problem."</i>
Disagreement Bridge	<i>"Where I diverge is on the approach."</i>
Warm Common Ground	<i>"I am on your side in this — I just see one part differently."</i>
Structured Agreement	<i>"Let me start with where the proposal is right — because most of it is."</i>
Agreement Under Fire	<i>"You are right that the risk is real — and that is exactly why I favour the other option."</i>

AVOID

- When a harmful or unethical direction requires speed of objection over tone.
- When you have already agreed in principle and additional agreement feels performative.
- In one-on-one contexts where the group dynamic element is absent — consider TC001 instead.

REMEMBER

Agree specifically or do not bother.
