

TC021 / Rank 26 - Autonomy Release

TwoCard_Combined

- Explicitly return choice to the other person so they do not feel trapped by your request or suggestion.
- > Clear ask or recommendation + brief reason + real freedom cue + easy next option - "I'd suggest option B because it keeps this simple. But it's your call." - "Could you read the one-page version
- "No pressure if not."
- The move fails when the autonomy phrase is fake and pressure continues underneath.
- > Autonomy release only works when the freedom is real. Say it once, mean it, and let your behaviour prove it.
