

Perception -> Move -> Phrase -> Calibration -> Recovery -> Chain

Perception

Notice the cue.

Move

Notice a thread that was opened earlier, then reopen it cleanly without derailing the current conversation.

Phrase

Can I come back to something you said earlier about that part?

Calibration

Follow green lights; release on yellow/red lights.

Recovery

I may be reading that wrong.

Chain

TC001 Live-Thread Follow-Ups -> TC038 Conversation Threading -> TC011 Summary Check
