

Topic Energy Tracking

Notice the live thread, test lightly, follow or release.

Core move

Notice where a topic gains detail, warmth, speed or specificity. Ask one low-pressure follow-up, then watch.

Safest line

"You had more to say about that part - want to stay with it or go another direction?"

Do not

Do not mind-read, interrogate, steer toward your agenda, or probe sensitive material.

Calibration

Continue if they add detail. Release if they shorten, redirect, or seem uncomfortable.
