

Respectful bridge back to a lost thread

Core move

Bridge back to an earlier open thread, name it specifically, ask one clean follow-up, then follow or release.

Minimum viable phrase

Can I come back to the part about X for a second?

Use when

A useful earlier thread got buried and returning would increase clarity, care, or decision quality.

Avoid when

The topic was closed, the current issue is urgent, the setting is exposing, or your motive is pressure.
