Clarify objection - Combined

Front + back field card

Core move

Clarify the objection before answering it. Turn vague resistance into a specific concern.

Formula

Cue -> Pause -> Clarify -> Name -> Check -> Respond.

Minimum viable move

"What part of that is the main concern?" Then wait.

Use when

The objection could mean risk, timing, cost, trust, fairness, workload, evidence, identity, control, or values.

Do not use as pressure

Clarifying an objection is not a way to talk someone out of a clear no.

Neighbour choice

Clarify first if the concern is vague. Validate, answer, disagree, or release autonomy only after it is clear.

Recovery

If it felt pushy: "No need to justify it. We can stop there."

Field tip

Do not answer the first shape of the objection. Clarify the concern underneath it.
