

Acknowledge Effort

Name the work before you judge the work.

Perception

Notice preparation, persistence, care, restraint, recovery, cognitive labour, or emotional labour.

Move

Name the specific effort before advice, evaluation, correction, or the next task.

Phrase

That took effort. I see it.
You did the hard part of making this clear.

Calibration

If they relax, continue. If they shrink or deflect, reduce intensity and move on.

Recovery

The effort is real, and the outcome still needs work.
I want to keep both true.

Chain

Acknowledge effort -> validate or appreciate -> clean next step.
