Turn-toward bids

Full field card: notice, respond, calibrate, repair.

Core formula

Notice -> Name or join -> Add one clean follow-through -> Calibrate.

Use when

Someone makes a small bid for contact, help, humour, recognition, or shared focus.

Best phrases

"Show me."
"What should I notice?"
"That sounds like it mattered."
"I want to hear this properly. Can we come back at 3?"

Common mistakes

Ignoring tiny signals.
Over-entering every bid.
Solving too fast.
Using stock warmth.
Rewarding boundary-violating access demands.

Recovery

"I turned away too fast. Say that again."
"I treated that as small. It sounds like it mattered."

Neighbour choice

TC082 catches the bid first.
Then chain to appreciation, celebration, common ground, or boundary-setting.

Field tip

Small bids are door knocks, not alarms.
You do not have to enter every room, but do not pretend you heard nothing.
