Question-stacking restraint

Combined front/back field card

Front - move

Ask one real question at a time.

Reset aloud when you stack.

Wait before follow-up.

Back - use / avoid

Use when question-load is high.

Use neighbours for warmth, advice restraint, or two-option simplification.

Formula

Stack -> Reset -> One anchor -> Wait -> Follow

Minimum viable phrase

I just asked too many things at once. One question: what is the main part?

Recovery

That came out like an interrogation. I am going to slow down and listen.

Field tip

One question mark per turn is the default.
Follow-ups are earned by the answer.

Safety boundary

Use this to increase clarity, ease and respect, not to pressure, extract, corner, sell, seduce, or override autonomy.
